Nº	Problem	Heuristic	Description	Severity	Solution	Screenshot
1	Text Hard to Read	4. Consistency and Standards	The text above the video has low contrast, making it difficult to read. Sometimes the text appears in the video too.	1.7	Add a semi-transparent layer below text to ensure the text is legible.	Image 1 & Image 2
2	Text on "About" page is nearly invisible	4. Consistency and Standards	The white text on a pale beige background makes it difficult to read.	2	Change text color to dark (e.g., black or dark grey) for better contrast.	Image 3
3	Position of the text looks different	4. Consistency and Standards	In the challenge of NewBee, the 3rd point starts in a different position than the others.	1	Adjust position of text	Image 4
4	Header has text for some icons/labels and lacks text in two	4. Consistency and Standards & 8. Aesthetic and Minimalist Design	The header has 8 clickable buttons, 8 have icons and only 2 do not have text explaining what page they take us to.	1.7	Choose better labels and remove text	Image 5
5	Empty About page	4. Consistency and Standards & 8. Aesthetic and Minimalist Design	The "About" page seems like it was forgotten about, as the text is very minimal, lacks formatting and more than half the page is empty	2.3	Fill the page with more information and format the text.	Image 6
